SUICIDE FOR LOVE. - About 8 o'clock Thurs day evening a young woman named Mary O'Neil alias Cummings, living at the house of Mrs. Isabella Rix, on Main street, between Twenty-second and Twenty third streets, having received some unkind treatment at the hands of her lover, determined to put an end to her mortal existence. She sent a servant out to purchase fifty cents' worth of laudanum, and took most of it as soon as it came into her possession. Shortly aftetwards she went into the room of a companion and told her what she had done, at the same time kissing and bidding her farewell with much affection. This companion carried her back to her own room, and insisted upon undressing her, and after doing this walked her about the floor for some time to prevent the drug from taking effect. About eleven, physicians were sent for. They came and promptly administered all the remedies their skill could devise, without effect, however, for about 6 o'clock yesterday morning she died.

The deceased was the mother of a child about twelve months old, and was twenty three years of age, of comely appearance, and is said to have been one of the most decent women of her class. The young man at whose door her death is laid is well known here, though not a native of the city.-Rich. Enq.

Josh Billings sums up his mortality expe rience thusly:

"Men, if they ain't tu lazy, liv sometimes till they are 80, and destroy the time a good deal as follows: the fust 30 years they spend throwing stuns at a mark, the second 30 they spend examining the mark to see war the stuns hit and the remainder iz divided in cussing the stun throwing bizziness and nussing the ru-

CHARLES WHITTLESEY, U. S. COMMISSIONER,

ATTORNEY AND COUNSELLOR IN
BANKRUPTCY.
Congress having just amended the Bankrupt

law so that nearly all parties can be discharged from their debts unobstructed by the fifty per cent clause, so-called, another opportunity offers to secure the benefits of this most effective and permanent measure of relief. The abovenamed will make bankrupt business a specialty; will procure discharges on the most moderate terms, and transact all business in that line at prices which cannot fail to be satisfactory. Being U. S. Commissioner, he will endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges can be obtained here before Register Hill as promptly as in Richmond or elsewhere, and at much less expense to parties It may be added that the Bankrupt act, in connection with the Homestead exemption, which it is now believed will be secured to the bankrupt under the bankrupt law, is the only real relief now offered to parties struggling in the hopeless bondage of old debts. PURE BONE FLOUR.

EAP, RELIABLE, AND DURABLE FERTILIZER,

possessing Ammonia enough to make the growng crop, and permanent fertilizing qualities in abundance to enrich the soil.

Bone has been so tampered with by unscrup-ulous manipulators that consumers have justly become suspicious of it. To satisfy such, I append the result of an analysis of this article by the eminent and well-known Chemist, Dr. G. A. Liebig, together with his remarks in regard to it.

He says: "This is a superior article of Flour of Bone; pure, unadulterated and free from all worthless impurities. One hundred pounds of it contains nearly as much of Phosphates as 150 lbs of the common article of Raw Bone. "Through the peculiar process to which it

has been subjected, it has been rendered highly friable and soft, and will thus be readily as-similated in the soil." For sale by

CONTAINING 6 par cent Ammonia. Super-Phosphate, equivalent to Bone Phosphateof Lime.....57 par cent Potash and Soda...... 5 per cent

EXCELSIOR is composed of 700 pounds of No. 1 Peruvian Guano, and 1300 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever effered to the farmer-combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniscal guanos, but stimulating the crop to which is is applied, and all succeeding ones, giving to poor, worn out and unproductive soils new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money

have been expended.

EXCELSIOR was introduced in 1858, and we challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of the PROPRIETORS SUPERINTENDS IN PERSON EVERY MIN-UTE OF ITS MANUFACTURE, and therefore warrant every bag uniform, and to contain by analysis the standard of fertilizing proper ties, giving that protection to the farmer which he does not have in the purchase of any other

Guano or Fertilizer sold. Excelsior is in line dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating pestry imported. We have also made arrangefarmers, after TWELVE years' experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Ex-sior is equal to 200 to 300 pounds of any other Fertilizer or Guano offered for sale, and there-

fore is fully 100 to 200 per cent cheaper. The very best evidence we can offer of the value of Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited. Some unprincipled manufacturers have actually used the trade mark for the purpose of palming off their worthless com-

TELL'S AMMONIATED SUPER PHOSPHATE.

The best and most popular Fertilizer in use. Quick and active as Peruvian Guano, and permanently improves the soil. It stands the drought better than any other

Fertilizer, which is very important to the far-It is manufactured of Bones, Animal Matter and a rich Phosphatic Guano, containing over sixty per cent. of Bone Phosphate of Lime, treated with Sulphuric Acid, and 10 to 15 per cent. Bone Phosphate of Lime rendered soluble; at the same time rendered quick in its ac-

tion by the addition of over 2 per cent of Ammonia. This superior Phosphate has now been tested for over five years, on all kinds of crops, by the side of all known Fertilizers, proved equal to

the best, and has given all the general satisfac-tion that could be desired.

For this valuable Fertilizer we only ask a trial side by side with any Fertilizer in the market to attest its superiority.

Every farmer should give it a trial, as the cost will be more than repaid the first year, and

its beneficial effects lasting.
For Corn, Oats, Wheat, Rye or Grass, it has no superior. Zell's Phosphate is fine and dry for drilling, and is put up in bags or barrels.

Price \$60 per ton of 2000 lbs. Send for a circular, and read the certificates of some of the best farmers in Virginia who attest its superiority over all other Fortilizers. SAMUEL HARTLEY, General Agent, 13 Union street, Alexandria, Virginia.
